Stream

YOUR STREAM WILL NOT ONLY FEEL GOOD, BUT IT WILL ALSO LOOK GOOD.

The **Stream** is a new generation spa. It's roominess exudes unparalleled comfort. It's 100% accessibility exudes peace of mind and above all, it's extremely affordable. The **Stream** was engineered to combine comfort and roominess. It was designed with multiple seating options for massage variety and to accommodate different body shapes and sizes. It also has an oversized footwell for added leg comfort. The lounge is unique in that it can be used by a single person or with a second person relaxing at the other end. The lounge chairs are extremely roomy, as well, and two are equipped with armrests for added seating comfort. The **Stream** also has two cool down seats that provide a break from your massage or simply, a chance to cool down a bit without having to exit the spa.

The **Stream** is equipped with a 4-way diverter valve to enable a variety of massage options. You can direct the water through all the jets for a gentle, relaxing massage. If desired, you can divert the water through one half of the spa jets or through the other half of the spa jets to increase your intensity. And if you need to address a specific part of your body with dynamic force, you can direct all of the water through a single, turbo jet. Whatever your body desires, the **Stream** can deliver.

The **Stream** is manufactured as a 120V "Plug & Play" spa. You can simply set it in place**, fill it with water and plug it into a standard, dedicated 120V electrical outlet. And if you enjoy using your spa for long periods of time in cold weather, it can also be converted to 240V* for better heating efficiency.

The **Stream** was designed with a contemporary look that you will be proud to display in your backyard. It has the ambiance of an LED backlit, cascading waterfall which is enhanced by external LED sconce lighting in each corner of the spa.

BE AT THE HEART OF THE STORM!!!

The **Storm** adds a new dimension to rotationally molded spas. It combines styling, comfort, ambience, serviceability and exceptional massage all in one truly portable and affordable spa. As its name suggests, the **Storm** will catch your attention. Its sleek, modern design not only exudes practical features, but it also blusters with features like a back lit, cascading waterfall, external LED sconce lighting, hand recesses for easy portability and 100% accessibility to the plumbing and equipment. With unequaled comfort, ambience and practicality, the **Storm** delivers a truly gratifying spa ownership experience.

The **Storm** seating allows for versatility. You can relax in either of the two body-conforming captain's chairs. One chair is 2" wider and 2" deeper than the other to accommodate different body shapes and sizes. Both chairs are equipped with armrests. A full width bench seat enables barrier free movement in the spa and its curved ends enable it to double as a lounger. The **Storm** also contains a step for easier and safer entering and exiting to and from the spa. This step also doubles as a cool down seat so you don't have to exit the spa if you're feeling a bit warm.

The **Storm** is a true "Plug & Play" portable spa. It needs no special site preparation**. The bottom of the **Storm** is totally protected and the spa can be set on any solid level surface. No electrician is needed. The **Storm** comes standard with a 15', 120V GFCI-protected cord that is ready to be plugged into a dedicated 15amp standard wall receptacle. For those who plan to use their spa for long periods of time in cold weather, it can also be converted to 240V* operation for better heating efficiency.

The **Storm** is very portable. It weighs approximately 320 lbs., dry weight, and it has built in hand recesses for easy lifting and handling. It can easily be transported in the back of most pick-up trucks, on a small trailer or in a moving truck so you don't ever have to worry about leaving your spa behind again.

If you are looking for simplicity, comfort, quality, portability and affordability, be at the heart of the **Storm!!!**

FANTOM

fantomspas.com/en_us

Images for reference only. Colors and specifications may vary.

THE FANTOM IS A TRADITIONALLY DESIGNED SPA

It combines the simplicity of stadium seating with a body conforming lounger. It's an ideal spa for individual use or for a relaxing get-together with family and friends.

The side by side stadium seats provide a comfortable sitting area where you can just sit back and relax, or you can have a nice conversation with the people sitting beside or across from you. Each pair of stadium seats has a different angle at which to rest your back. You can sit almost straight up, or if you prefer, you can sit in the opposite seat and tilt yourself back a little further. Either way, it will be very relaxing. The **Fantom** also has a body-conforming lounger with dual armrests. You can just lay back and enjoy the soothing feel of the jet action on your entire back and on the bottom of your feet at the same time.

The **Fantom** has 20 stainless steel jets that are positioned to give you a thorough and pleasing massage. Each jet is also individually adjustable. The stadium seats have full back and lower back jet patterns while the lounger has a more intense back pattern with the added pleasure of foot jets.

The **Fantom** is manufactured as a 120V "Plug & Play" spa. You can simply set it in place**, fill it with water and plug it into a standard, dedicated 120V electrical outlet. And if you enjoy using your spa for long periods of time in cold weather, it can also be converted to 240V* for better heating efficiency.

The **Fantom** has a traditional look that you will be proud to display in your backyard. It has the ambiance of an LED-backlit cascading waterfall which is enhanced by external LED sconce lighting in each corner of the spa.

Your Fantom will not only feel good, but it will also look good.
